author writes poetry based on the expression of his feelings so that the language used can be interpreted differently.

The one who write poetry is called as poet. The word poet in the ancient Greek tradition means one who creates through his imagination, one who is almost like a god or who is very fond of the gods. He is a shrewd person, a saint, a philosopher, a statesman, a teacher, a person who can guess the hidden truth. By the elimination of time, the word “poet” get the degradation meaning which leads to writer of the poetry. Every poetry made by a poet must have meaning and meaning in it that is not known implicitly. Poetry is a form of literature that expresses the poet's mind and feel imaginatively by using the language of choice. It expresses thought-provoking thoughts and stimulates the imagination of the senses in a rhythmic arrangement. (Peter, 2005)

One of literary work from Kahlil Gibran that really impressive is Broken Wings. Poetry of the Broken Wings is the birth of the reality of his passionate romance. His love anchored to a girl her little playmate named Selma Karamy. It is very difficult to find Kahlil Gibran's love form for Selma. More than an everlasting love, a love of purity, an intrinsic love, a blind love, a sacred love, a sincere love of a young man and all the love that exists in the world. But the power of love he experiences and feels is to be the birth breath of his works. Although the love that is felt is not up to the expected, but the spirit of love that is felt at that time remains clearly caught by everyone. (Dian, 2009: 142)
